SmartHive

AI-Powered Knowledge Twin Hub

OUR MISSION

Transform hidden knowledge into value & create a smarter future of work with the help of Knowledge Avatars
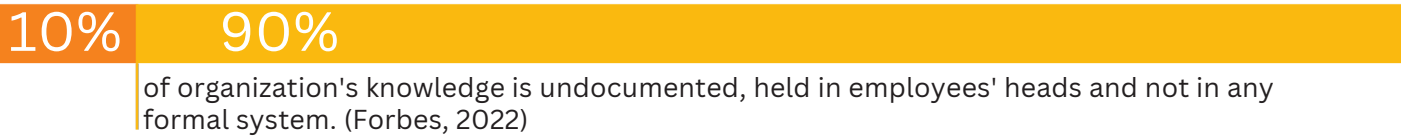

OPPORTUNITY

CUT WASTED TIME: Employees spend 9,3hr per week on searching for information which is 20% of working time wasted per year.
Forbes,2021

RETAIN TALENT: The average expense to replace an entry-level employee is up to 50% of that employee's salary.
GrowthForce, 2022

SAVE THE COST: Large enterprises lose on average $47m per year because of inefficient nowledge sharing.
Forbes,2021

AI AGENT ERA: 65% of executives expect their organization's investment in intelligent digital twins to increase over the next three years.
Unleash, 2021

of organization's knowledge documented e.g., Emails, Chats, Notes etc.

10%	90%

of organization's knowledge is undocumented, held in employees' heads and not in any formal system. (Forbes, 2022)

SOLUTION

SmartHive creates digital knowledge twins for employees, capturing expertise from both documented & undocumented sources like MsTeams meetings, Zoom video calls, Slack, emails, & BI. This AI-powered hub provides instant, centralized access to critical insights, ensuring seamless knowledge retention & rapid knowledge exchange across organizations.
